MEANINGS

- **Phonetics:** Phonetics is the study of speech. It is the study of how the sounds of a speech are produced and how they are used while speaking.
- **Syllables:** A syllable is a particular unit into which a word may be divided, containing a vowel sound and one or more consonants.
- **Stress:** Stress means giving extra force or emphasis to a syllable or word. Good pronunciation comes from stressing the right word and syllable.

MEANINGS

- **Accent:** Accent is the vocal stress or emphasis given to a particular syllable or word.
- **Rhythm:** Rhythm is just a regular repeated pattern of sounds. English speech has a rhythm that allows us to divide it into more or less equal intervals of time called 'feet'.
- **Intonation:** Stress and accent play a very important role in 'intonation', which may be termed the music of language. Intonation is the sentence stress. Some long sentences contain a regular pattern of stressed and unstressed words. While speaking, the voice tends to rise and fall or remain flat depending on the situation or depending on the mood of the speaker.

EXAMPLE

Good morning ! My name is Priya Sharma, and I am currently based in Pune. I have completed my MBA in HR from XYZ University in 2023. During my MBA, I interned with ABC Company, where I assisted with recruitment drives and employee engagement activities. I have strong skills in communication, problem-solving, and I enjoy working with diverse teams. One of my key achievements was organizing a campus hiring event that resulted in a 20% increase in quality hires. I am very interested in this role because your company's focus on innovation and employee development matches my career goals. Apart from work, I enjoy reading, trekking, and participating in community volunteering activities. Thank you so much for this opportunity. I look forward to contributing my skills and learning with your team.
