Activity description: The students have to create a 3-slide presentation (PPT) on “My career goals in IT”.

POWERPOINT PRESENTATION - INTRODUCTION

What is a PowerPoint presentation?

- A PowerPoint presentation is a visual and multimedia tool used to display information in a structured format.
- It typically consists of a series of slides that combine text, images, graphs, charts, videos, and other visual elements to communicate a message or tell a story.
- Microsoft PowerPoint is the most popular software used to create such presentations, though other programs (like Google Slides or Apple Keynote) can also be used
- A good PowerPoint presentation should be clear, concise, and visually appealing, helping to keep the audience engaged while effectively conveying your message.

POWERPOINT PRESENTATION - INTRODUCTION

Key features of a PowerPoint presentation:

- Slides
- Text
- Visuals
- Transitions and animations
- Design and layout
- Presenter notes

POWERPOINT PRESENTATION - INTRODUCTION

Common uses of a PowerPoint presentation:

- **Business presentations:** To present reports, ideas, strategies, or proposals.
- **Educational presentations:** Used by teachers or students for lessons or assignments.
- **Sales pitches:** For promoting a product, service, or idea to potential clients.
- **Conferences and seminars:** Used to communicate complex information in a digestible format.

PRE-PRESENTATION JITTERS

- **Preparation is a key:** Know your material. Have a clear structure.
- **Practice, Practice, Practice:** Rehearse out loud. Record yourself. Practice in front of others.
- **Breathing and relaxation techniques:** Deep breathing, grounding exercises, progressive muscle relaxation
- **Visualization:** Visualize success, positive affirmations.
- **Focus on the message, not yourself:** Shift your focus from how you're feeling to the value you're providing. Connect with the audience.

PRE-PRESENTATION JITTERS

- **Know the environment:** Arrive early. Test your equipment.
- **Have a backup plan:** Prepare for mistakes. Bring a backup of your presentation.
- **Reframe nerves as excitement:** Reframe your nerves as excitement.
- **Engage with the audience:** Ask questions or invite audience interaction if appropriate.
- **Give yourself permission to be imperfect:** Remind yourself that no presentation is perfect.

GETTING READY FOR A PRESENTATION

- **Structure your content:** Introduction, Body, Conclusion.
- **Design tips for PowerPoint:** Keep slides clean. Use visuals, consistent design, readable fonts. Limit animation.
- **Rehearse:** Make a rehearsal of the presentation.
- **Engage your audience:** Make the presentation interesting. Ensure that audience pays attention to your speech and slides.
- **Prepare for Question and Answers:** Know your topic thoroughly.

PREPARING A PRESENTATION AND PRACTICE

Step 1: Preparing your PowerPoint presentation:

- **Clarify the purpose and audience:** Purpose, audience
- **Outline your content:** Introduction, Body, Conclusion
- **Design your slides:** Keep it simple. Use visuals.
Maintain consistency. Limit text, transitions and animations.
Proofread.
- **Add speaker notes:** Keep notes on paper or mobile if required for referring.
- **Prepare for questions:** Be ready with thorough knowledge of the topic.

PREPARING A PRESENTATION AND PRACTICE

Step 2: Practicing your presentation:

- **Rehearse the presentation:** Timing. Practice with transitions.
- **Refine your delivery:** Speak clearly. Eye contact. Gestures and body language. Volume. Expression.
- **Use a timer and adjust:** Pay attention to the timing.
- **Record yourself:** Pacing. Tone. Clarity.
- **Practice with feedback:** Practice in front of someone else. Ask for constructive feedback on.
- **Prepare for technical issues:** Test the equipment. Backup.
- **Relax and manage anxiety:** Relaxation techniques. Positive self-talk. Shift focus from fear to the message.

DELIVERING A PRESENTATION

- a) Preparation for delivery:
 - i) **Technology check:** Arrive early. Test the equipment. Have backups. Prepare for interruptions.
 - ii) **Prepare mentally:** Revisit your content. Do a relaxation exercise.
- b) Engaging the audience from the start:
 - i) **Start with confidence:** Greet your audience. Introduce yourself. Set the tone. Ask a question. Share a startling statistic. Tell a short story or anecdote.
 - ii) **State the objective:** State the purpose of the presentation.

DELIVERING A PRESENTATION

c) During the presentation:

- i) Use your slides as a guide, not a crutch: Don't read directly from the slides. Talk to your audience. Expand on key points.
- ii) Control your pacing: Don't rush. Use natural transitions. Watch your timing.
- iii) Engage the audience: Ask questions. Encourage interaction. Use storytelling. Be enthusiastic.
- iv) Body language and voice: Stand tall. Gestures. Facial expressions. Voice modulation.
- v) Manage nervousness: Breathe. Focus on the message. Embrace mistakes.

DELIVERING A PRESENTATION

d) Managing questions:

- i) During the presentation: Pause for questions. Clarify if needed.
- ii) At the end of the presentation: Invite questions. Be concise in your answers. Manage time.

e) Closing the presentation:

- i) Summarize key takeaways.
- ii) End with impact: Call to action. Memorable closing.
- iii) Thank the audience.

f) After the Presentation:

Be available for follow-up questions. Seek feedback.
